Operating instructions

- Heat ingredient of phase A to 80°C while stirring with moderate speed.
- Solubilize ingredients of phase B and adjust pH below 5.5 with citric acid (10%). Heat it to 70°C.
- Emulsify phase B into phase A at 70°C under rapid stirring
- Cool down to 35°C with moderate mixing.
- Add ingredients of phase C, D, E, one by one, with rapid stirring, especially for phase D.

Primer-to-Powder
2479-2.05

- + Creamy to powdery touch
- + Featherlight
- + Mattifying

Description

This primer is the perfect make-up base for your daily routine. Once applied, you first feel the texture of a rich W/O cream thanks to Emulium® Illustro, which rapidly gives transforms this creamy texture into a powdery touch with a silky and light afterfeel. Your skin is left matte and smooth with a « peach skin » effect. It also contains Gatuline® Renew with a proven moisturizing efficacy which leaves a beautiful texture and appearance to the skin.

Specifications

- + Aspect: White thick fluid
- + Viscosity Brookfield RV (spindle B, speed 5): approx. 60 000 mPa.s after 24h
- + 99.6% natural origin (ISO 16128)

Ingredients

- **Emulium® Illustro** is a 100% natural origin W/O emulsifier used at 5% to stabilize the cream with high amount of powders.
- **Lipocire® A SG** is a texturizing agent that brings a melting sensation thanks to its melting point close to body temperature.
- **Compritol® 888 CG MB** and Bentone Gel stabilize the oil phase.
- **Acticire® MB** is an active texturizing agent that brings comfort and moisturizing properties.
- **MOD MB** is an emollient that improves spreadability and comfort without greasy afterfeel.
- Cetiol® Ultimate is a dry emollient
- Magnesium Sulfate is a salt that stabilizes the emulsion.
- Silica, Reisita Natural and Amihope® LL are sensory powders that bring powdery, soft and mattifying effect.
- **Gatuline® Renew** is clinically proven to increase the overall skin quality & appearance.
