## Operating instructions

- Heat A1 at 85°C and mix with a spatula until obtaining a supple white texture.
- Add A2 to A1 and mix with the spatula, then mix under defloculent for 2 min until homogenization.
- Heat A1+A2 at 85°C.
- Heat B at 85°C for at least 15 min.
- Under defloculent, add B to A1+A2 (2000 rpm) for 5 min, until obtaining a supple yellowish paste.
- Cool under defloculent until 65°C.
- Put the paste in the moulds with the help of a piping bag (about 66°C).
- Let cool in the moulds (at least 1h) and put in the refrigerator (2h) to enable un moulding.

## Description

Adopt a new gesture thanks to this face cleanser with a solid but melting texture! Apply the product directly onto dry skin, then rub the skin with wet hands to create foam and clean the skin. Thus, the product is not damaged by water and is gentler for the skin as only the right amount is applied.

## Specifications

+ Aspect:  
Off-white solid form

+ 92% natural origin (ISO 16128)

## Ingredients

- Jordapon® SCI Powder is a solid surfactant that creates very hard products. The combination with Dehyton AB 30, a liquid surfactant, makes it possible to obtain a softer formula.
- **Original Extract™ Orange Bio** is an organic fruit water.
- Rice PO4 Natural brings consistency to the formula and softness after rinsing.
- **Lipocire™ A SG** is a texturizing agent that brings a melting sensation upon application and improves product application.
- Kahlwax 2442L brings consistency to the formula.
- Jojoba Oil is a vegetable oil that brings emollient properties without greasy feel.
- **Acticire MB®** is a texturing ingredient that brings moisturization and comfort and improves foam quality.
