- Add B into A at 70°C, under rapid mixing, for 10 minutes.
- Cool.
- Add C at 30°C under mixing.
- Complete cooling.

GATTEFOSSÉ

Crazy Matte Wax
1925-1.16

Description

Style and restyle your hair with this crazy wax: it keeps your hair on hold all day long without any shine, even after a restyle in the middle of the day. Thanks to Definicire™, small frizzes are kept in place and hair looks neat.
Apply in the morning on short hair and leave it to dry: hair is mattified and styled.

Specifications

+ Aspect:
  Off white thick cream

+ pH = 5.9 ± 0.5

+ Viscosity Brookfield RV (spindle F, speed 5) :
  approx. 490 000 mPa.s after 24H.

Ingredients

- **Emulium® Mellifera MB** at 4% creates a thick cream with a low residual film, preventing from greasy and shiny hair.

- **Definicire™** at 5.5% is a texture agent increasing the viscosity and improving softness and hydration. It maintains the fly-away hair and mattifies the hair.

- Beeswax helps to reach a high viscosity.

- Tapioca Starch is a feeling agent giving a powdery touch.

- Glycerin brings moisturization to the hair.

- Cosmedia® SP is a gelling agent improving the stability and providing a matte aspect.
